ABOUT US

Constantly focusing on a world view, Dynamics brings to The State of Kuwait, a truly international range of food-service equipments with the solutions for hotels, restaurants, frozen yogurt stores, coffee shops, bakeries, ice-cream & beverage, food retail and the healthcare segments.

Dynamics through the years has also expanded by adding a Design & Supply department. Their services provide the help you need, from the initial design phase to the final delivery and installation. Dynamics has experienced and knowledgeable staff to help you and your architect with every aspect of equipment layout and specifications. With the latest CAD (Computer Aided Design) technology we can provide you with quick, clear and precise drawings. Dynamics is equipped to make your project as trouble free as possible.

Since its inception, Dynamics has displayed a visionary understanding of emerging opportunities in the field of Hotel and Food service business. More importantly, the company has proven its ability to transform these opportunities through innovative value propositions for its customers. A blend of high quality products and a dependable, country wide service backbone is at the core of these value propositions.

Dynamics has been on the cutting edge of technology and conservation. The Dynamics team is committed to providing products that not only satisfy customer needs but also add value to the equipment investment by reducing costs, improving productivity, ensuring reliability and emphasizing food safety. The company strives to enable its customers in upgrading their businesses by positively impacting the way they attempt to achieve their own great goals.

Call Dynamics Today for any Turn Key Projects as we are totally equipped to provide you complete solutions from the initial layout phase and until the inception of your project.

We are proud to bring you Complete **Hotel**, **Restaurant** & **Cafeteria** Solutions!

Rohit G Mirchandani

Dimension & Temperature : As per requirements

How blast chillers work & Cycle functions

How blast chillers work

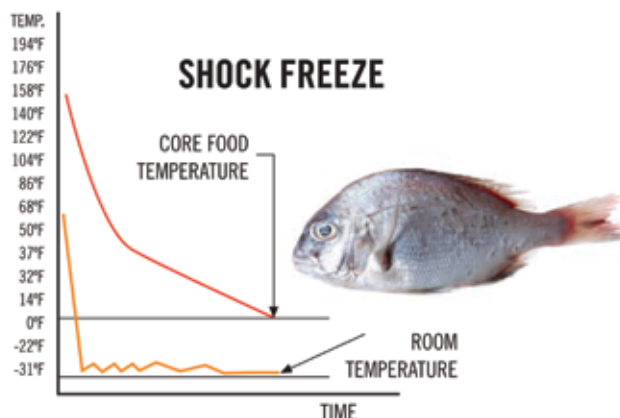

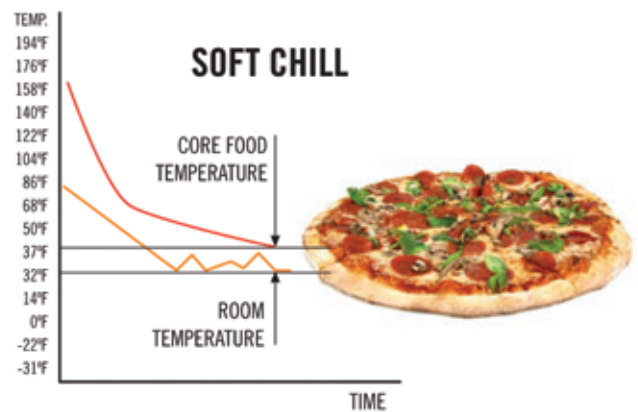

Blast chillers quickly reduce the core temperature of the products, whether they are cooked or fresh, conserving their fresh texture, hygiene and quality, whilst reducing the risk of bacteria generating.

The traditional method of storing cooked food has always been to leave it to cool naturally until it reaches a suitable temperature to store in the refrigerator.

During the period when the core temperature falls from 149°F and 50°F, the food will lose a lot of its natural characteristics, such as moisture, consistency, aroma and colour, furthermore, this is when bacteria begin to develop.

INFRICO BLAST CHILLERS are designed to reduce the time period for this critical change in temperature.

Cycle functions

Blast Chillers/Freezers

- Pass thru with roll in trolley

Satisfied customers all over the world, confirm Infrico's investment in a production centre that is one of the more modern industrial installations in Spain, has been well worth while. The plant has a total surface of 40.000 square meters dedicated to production.

ENTIRE INFRICO RANGE IS AVAILABLE, CONTACT YOUR DEALER DYNAMICS, KUWAIT

Since its inception in 1991, TurboChef Technologies has pioneered the rapidly emerging world of speed cooking. Its vision is to be the world leader of speed cooking by way of a daily-renewed commitment to deliver strong competitive advantages to customers worldwide. Whether you are a small independent or multi-unit chain, TurboChef has an oven to meet your needs. The entire product line of speed-cook ovens fits virtually every cooking application, offering high-quality results, superior cook speeds and a small footprint. All TurboChef ovens are energy efficient and UL-certified for ventless operation. Also, TurboChef has integrated smart menu technology into each oven ensuring consistent, repeatable product results and simple 2-key-press operation.

thermoplan
Swiss Quality Coffee Equipment

ABOUT US

WELCOME TO THERMOPLAN.

Thermoplan produces professional coffee machines which are esteemed all over the world for their reliability as well as for their unique features. Before our first-class quality products leave the premises in Weggis it is, above all, enthusiasm and passion which are required, in addition to vast technical know-how. We have those in great abundance. We are delighted to be able to provide you with the most innovative solutions, now and in the future. This is in line with our motto "Your challenge is our passion!".

CEO Adrian Steiner

Mission

"Creating a good product is not only good business, it is a moral obligation"

Giorgio Berto

Partner and founder of BERTO'S S.p.A.

Commendatore of the Order of Merit of the Italian Republic on 19th September 2005

Tribano

In my position as a Chairman of the Board of Directors, I am honored and proud to present BERTO'S S.p.A. to our loyal customers who, although know and appreciate our products, may not know our history and the Company's present structure that has made our business possible. It's also a good occasion to express the Company's deep appreciation for all those who - even if they are not named in the following pages - thanks to their work, through various tasks and typologies, have allowed us to achieve the results we will later discuss, and still they allow BERTO'S S.p.A, despite the global economical crisis, to continue improving for the benefit of our customers, suppliers and all those who work inside or outside our company.

FRICOSMOS, S.A. is a firm founded in 1985 all with Spanish capital which represents the continuity of a long dynasty beginning in 1960 by the brothers Sanz León in cutlery and ironwork.

Later on, chopping blocks, tables, sinks and shelves, etc. This result have proved possible thanks to the collaboration of our clients, ever more numerous and increasingly discerning.

Throughout our years of existence we have joint our innovative technology and materials of the highest quality, which meet all the standards and European current norms.

FRICOSMOS, S.A. have achieved the certified ISO 9001:2000, granted by AENOR. This certified, in recognition of the efficiency and the experience of our quality system, confirms the will of our firm as a manufacturer for the development of a straight line of continuous progress, giving day after day the most suitable response to our customers needs

The founder company of the ALI Group, Comenda has been synonymous with the best in professional dishwashing equipment for over 50 years.

One of the industry's top players both in Europe and worldwide, Comenda manufactures and markets more than 200 dishwashing solutions, from the smallest glasswashers for bars through to large automated continuous flow systems for restaurants, hospitals, canteens and in-flight catering.

Comenda also designs and installs customized solutions for individual space and workload specifications.
