SAFETY CULTURE

Your personal guide to Safety and Rig solutions from **Safety Plus World**

MD MESSAGE: MR. ROHIT G. MIRCHANDANI

I would like to thank all our customers, suppliers and well-wishers for their good wishes and support to Raja Company – Raja Company and its various divisions. The year 2020 has been a tumultuous year for all where personal health and business survival was paramount. On a positive note, although it has been a challenging year, we all have learned how to cope and make the best out of a crisis. With the intense vaccination drive across nations, hopefully 2021 will see an end to this pandemic and better health & prosperity for all.

We as a group, want to thank all front-line workers for going above and beyond to keep us all safe, and we appreciate the necessary lockdowns and decisions taken by the government to ensure everyone's safety.

This magazine is born out of this awakening of sharing and caring for the wellbeing of all, and to bring regular updates on HSE, Rig Products and Engineering services to the Oil & Gas industry through our various Products & Services offerings.

Let us make SAFETY our CULTURE !

Mr. Rohit G. Mirchandani
MD - RAJA Group

SAFETY PLUS WORLD ORGANISES THE 2ND EDITION OF THE GULF SAFETY CHAMPIONSHIP 2021

To extend our gratitude and appreciation to all HSE professionals, Safety Plus World hosted its second successful Safety Championship at the start of 2021. The first event was held successfully in Jan 2019 at the KOC hall, Kuwait, where Safety Plus partnered with the Kuwait chapter of the American Society of Safety professionals (ASSP) to bring in the event to all HSE professionals.

This year, the Gulf Safety Championship (2021) comprised of 300+ HSE professionals around the Middle East, participating in an online quiz that was articulated by various experts from the Safety industry. The competition had 128 questions that had to be answered in 45 minutes.

Safety Plus World created a seamless experience for the competition's participants with the help of the web development team of www.worldofhse.com. Additionally, while the participants answered the questions in the quiz, they were able to see a live leaderboard on their screens. This leaderboard brought in a fun element to the challenge as the participants could see theirs and their competition's performance throughout the championship.

The first-place prize money was \$1250/-, plus a 3 months' subscription for www.worldofhse.com. There were a total of 6 winners. This championship would not be possible without the support of the Kuwait chapter of ASSP who endorsed this event, and also our honorable sponsors: Edelhoff, Brady, Portwest, Bullard, Industrial Scientific, Cofra & Global Osha.

As always, we appreciate and thank every HSE professional out there, who is at the forefront of ensuring safe work practices. We look forward to the safety championship next year and we hope we can give more HSE professionals a chance to showcase their knowledge!

SPONSORS PARTNERS

ENDORSED BY

WORLD OF HSE - CONNECTING HSE PROFESSIONALS

World of HSE (WOH) is an interactive platform where likeminded individuals are brought together to express their knowledge or experiences – may it be theoretical or real life (respectively). WOH aims to create awareness and build a global community of individuals and professionals where 'Safety First' is a solemn pledge to leading their daily lives.

Furthermore, **WOH** is a tribute to the safety community as it is founded by individuals who have been in the safety industry for 30+ years - may it be with their products or offerings in the industry or their accumulation of in-depth knowledge on safety.

The Safety experts in WOH are available for interaction as requested by individuals or companies that would like to inculcate a comprehensive safety culture and awareness in their lives and their work environment. Furthermore, Webinars, Seminars. Safety Articles, Job Placement Classifieds and many more interactions will ensure WOH's objective of "CONNECTING HSE PROFESSIONALS".

Write to us at info@worldofhse.com if you would like to publish your safety articles or conduct online webinars, trainings or any other thought process. We would like to hear from you.

GULF RIG SUPPLIES - A DIVISION OF RAJA GROUP "FOR ALL YOUR RIG REQUIREMENTS"

We are pleased to announce our new capability in providing complete rig solutions to all our customers by supporting them with products such as Hammer unions, Mud Pumps and Parts, Swivel joints, Gate & BF valves, Intrinsically safe Pressure Washers and mobile phones, Explosion proof heavy duty connectors, Drilling compounds, Stretchers and First Aid Solutions, Finger savers and more. This will now be possible due to our associations with brands such as ACT, M&M valves, BestOlife, Sioux, Tracerco, Amphenol, Mud King, Spencer and many others.

Our partnership with manufacturers and suppliers of Kuwait Oil Company approved Rigging equipment, products and services companies in the USA and other companies around the world, enhances our thrust to work continuously to improve on our product offerings and better our services to the drilling companies (especially their urgent needs).

We are also working with top drilling contractors in Kuwait such as Halliburton, Schlumberger, Kuwait Drilling Company, Burgan Drilling, Weatherford Drilling, Grey Wolf, Sinopec and more, providing solutions to all their industrial needs.

Recent awards for over 25+ new rigs given to existing and new companies have had us prepare ourselves for ever increasing demand in rig requirements and supplies in the first quarter of 2021.

SAFETY PLUS WORLD A DIVISION OF RAJA GROUP

Safety Plus world is the one stop solution for all your Safety and PPE needs since 1996. Our slogan is - TOP BRANDS. TOTAL SOLUTIONS. ONE WORLD. and we mean it! Our product offerings include a few world class brands such as DBI SALA, Portwest, UVEX, Scott Safety, Ansell, Brady, Industrial Scientific, Giasco and Bicap (to name a few).

We have embarked on our own inhouse branded safety products under Safety plus world, Ishieldu, Desert Gold Earsafe and Airsafe, to bring in world class certified products with international standards at an affordable value proposition for customers. To know more and for detailed product lines and services please visit www.safetyplusworld.com.

Our stand on fighting COVID economically:

We, at Raja have introduced Hand sanitizers under our own in-house brand (IshieldU), which has the following features: (1) Unique packing of 950 ml with an Aloe vera scent and (2) Kills 99 % of the germs. Contact us at +965 - 66323117 for any bulk orders.

We also have Reusable masks under Safety plus world and Viroblock masks with Heiq coating, available for retail and wholesale at all our locations in Kuwait.

RAJA INTERNATIONAL UAE - AN ASSOCIATE OF RAJA GROUP

Raja International General Trading Company established in 2017 at SAIF Free Zone in Sharjah. Raja International UAE represents many international brands Like mPower (Gas detection), Bullard, Ironclad, Uvex, Portwest, Brady, Spencer, PSG Group and many more. The UAE office is the hub to reach customers in GCC and MENA region to offer Safety Plus World's 25 plus years of safety expertise to the region. For any trade inquiries outside Kuwait, please write to rgm@rajacompany.com

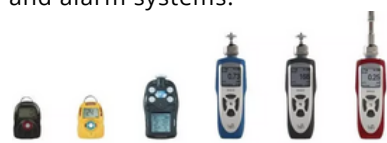

Bullard's hard hats and helmets have been carefully engineered to deliver superior performance, quality and durability. Bullard Product lines include thermal imagers, hard hats, firefighter and rescue helmets, supplied air respirators, powered air-purifying respirators, and air quality equipment.

Bullard a Pioneer in Head protection tied up with **Raja International UAE** to stock their fast moving products for Just in time Delivery to all their customers in the GCC region.

Raja International the GCC Master Distributor of mPower Electronics Inc. USA is a global manufacturer of gas detectors and alarm systems.

We provide UL/ATEX approved products like single gas and multi-gas detectors and PID sensors for the personal protection of men and women working in industries like emergency services, oil and gas, refineries, and environmental services.

IRONCLAD and KONG ORIGINAL Impact Protection Gloves developed to address costly hand injuries to workers in the oil and gas industry.

These gloves established a new category of hand protection and continues to set the standard. KONG ORIGINAL is now widely used by many oil & Gas and other industries. Over 1 million pairs of hands are protected by KONG.

Raja International General Trading (FZE)
راجا انترناشيونال جنرال تریدنج (م.م.ح)

VYTALTEC SERVICES

WHO ARE WE?

VytaalTec was born with the need of the GCC markets to have a specialized provider to make the difference in Pre and Post Sales support for various product lines in Oil & Gas and other industries.

All of our Raja Co-Safety Plus service support, Fit Tests, Rentals and Lifeline and Fall protection consultancy, Training and projects considered as a VYTAL TECHNICAL services will be clubbed under **Vytaaltec**.

Our certified team aims to give the best service in the shortest possible time with pin point precision to set a new standard for Engineering services at its finest.

VYTALTEC
Pin, Point, Precision.

OUR EXPERTISE

TECHNICAL SERVICES:

WHAT WE DO?

Certification -Training - Demonstration Engineering Design • Installation Site Surveys • Risk Assessments Inspection • Maintenance and Industrial Consultancy.

WE SPECIALISE IN ?

After Sales services Gas Detectors - Vertical - Horizontal Life Line Retractable Tieback Systems (Blocks) - Self Contained Breathing Apparatus - Fall Protection Equipment Life Support Systems.

SCOPE OF WORK

- Gas Detectors :Inspection, Calibration and Certification
- Vertical - Horizontal Life Line :Calculation, Design, Supply & Install, Inspect, Repair & Certify
- Retractable Tieback Systems (Blocks):Full System Inspection, Cable Replacement Cleaning, Consumable Replacement and Certifying
- Self Contained Breathing Apparatus (SCBA):Inspection, Repair Calibration, Leak Control & Test, Certification, Refilling of Air Cylinder, Air Quality Test
- Fall Protection Equipment: Harness inspection, Certification Lanyard Inspection, Certification Anchor Point Consultancy
- Life Support Systems (LSS): Helmet Cleaning, Leak Test, Airflow Test, Communication Control

FIT TEST SERVICES :

Why is fit testing necessary? Fit testing each model of respirator the employee is to use in workplace tasks before their use is important to assure the expected level of protection is provided by minimizing the total amount of contaminant leakage into the facepiece.

Fit-testing measures the effectiveness of the seal between the respirator and the wearer's face. It is required for all tight-fitting respirators, including: • half-face disposable • half-face reusable • full-face reusable • tight-fitting powered air purifying respirators (PAPR).

- In Q1 2021 the VytaalTec department have successfully Fit tested and certified 300+ employees in the oil and gas sector in Kuwait. You can call us on +965-56649000 or write to us on techexpert@safetyplusworld.com to know more and to do a FIT TEST for your employees

EQUIPMENT RENTALS:

Equipment rentals allow you to focus on the near future rather than taking the time to plan out a long-term maintenance plan. The present situation of the market is dynamic and many things may influence it. Renting equipment is able to cushion your company from any unpredictable financial downturns that may arise due to COVID 19 Pandemic or other market situations.

Why Rentals?: Our rental program gives you easy immediate access to a wide range of high value safety equipment. Here are some benefits of renting safety equipment over owning.

Rent these items today:

- Confined Space Entry Tripod and winch for entry and rescue.
- Multi gas monitor with pump.
- Single gas monitor.
- Self-contained breathing apparatus
- Airline trolley system
- Sound Level Meter
- Self retracting lifelines.
- Escape sets.

WHAT SERVICES VYTALTEC OFFERS FOR LIFE LINES?:

We do the complete turnkey consultancy from writing specifications, Drawing & Design, Supply and installation of Lifelines.

We have Successfully concluded various Life line and consultancy projects in Kuwait and GCC

- KIPIC lifeline systems 2500+ meters.
- Xcite warehouse 500+ meters.
- Fall protection consultancy deal (US Army)
- Fall protection consultancy inspection (US Air Force)
- Petra fall protection consultancy (Jordan)
- Aluminum, rubber factories fall protection consultancy.

TRAININGS:

Keeping us updated with knowledge on safe practices by training and re training helps one to be adepts at his job role and save lives. We conduct various sessions periodically.

LAUNCH OF ERI TECHNICAL SERVICES PRODUCTS & TECHNOLOGIES FOR CATALYST SERVICES IN MENA REGION

Background

ERI Technical Services FZE was born out of a long-standing cooperation between Edelhoff Technologies GmbH and Raja International UAE whereby at the end of 2019 it was decided to further intensify the cooperation through a Joint Venture established in the UAE with the aim of marketing Edelhoff products and technologies in the MENA region.

Maximum safety

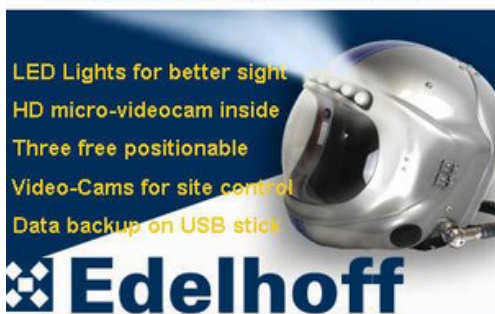

with Edelhoff Life Support System at works
in confined spaces, shafts & pits!

All-round monitoring of the operational locations

Nothing remains unseen - Everything is under control!

Quality and safety - Anywhere and anytime!

LED Lights for better sight

HD micro-videocam inside

Three free positionable

Video-Cams for site control

Data backup on USB stick

Edelhoff is well-known as a specialized manufacturer with a keen sense of customer requirements and close proximity to the market. They are an independent European manufacturer of CE- Certified Breathing Air Systems and offering the largest range of products and technologies for Catalyst services in refineries worldwide. Combined with 60 years of trading experience from The Raja Group in the Middle-East ERI Technical Services is a reliable and innovative business partner for you in the MENA region!

Registration & Launch in UAE

Establishing a company in 2020 during a global pandemic and many government institutions forced to close down was quite a task. But with some delay, we were able to open the office at Sharjah Free Zone in early September and the registration of ERI Technical Services FZE was a fact.

In order to ensure the quality and safety processes, our first focus was to certify according to ISO45001:2018 and ISO9001:2015 standards, for which we qualified ourselves in early 2021.

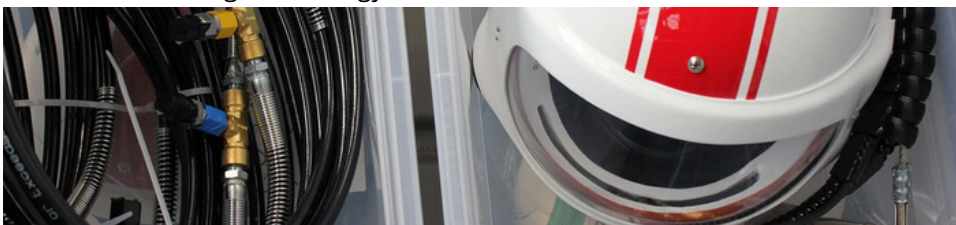

ERI Technical Services Activities

Did you know that ERI Technical Solutions is the only supplier in the Middle-East who can supply you with all products and technologies for Catalyst Handling Services from one source! If you would like to add Catalyst Services to your existing service lines, wants to renew or expand your current fleet then we are the partner of choice. In future newsletters, we will elaborate on a technology or a specific equipment, so make sure you subscribe to the newsletter.

Last Year Highlights

Equipment Rental fleet: Parallel to the establishment of ERI Technical Services FZE, we had already started setting up a rental fleet and are pleased to announce that the following Edelhoff equipment and technologies are available in the Middle East region for short- or long-term rental.

- LSS Life Support Systems
- Gas & Temperature Measurement Systems
- Measurement Technology – deltaP Multichannel
- Tubular Technology
- Reformer Loading Technology
- Dense Loading Technology

Technology Assistance: In the past year, ERI-TS has already made a difference in the region by assisting the various Catalyst Service companies and Refineries such as Yuhan-Tech, Contract Resources, Nico, Plant-Tech, KNPC and Equate with purchasing or renting equipment, on-line training and 24/7 on-line support during the projects, in order to be able to carry out crucial projects in these times of restrictions.

Contact

If you would like more information about our products, technical support or our interesting lease purchase agreements, please do not hesitate to contact us by email at gm@eri-ts.com or by phone at +31.621.385.665

PIPE MARKING AND LABELING SOLUTIONS FROM RAJA COMPANY

Raja Company along with Brady – USA teamed up in offering a comprehensive Pipe marking & labeling solution to our customers, we were awarded a project by Equate Petrochemicals plant in Kuwait which will be in 3 Phases to completely revamp their existing Pipe markings and safety signs. 1st Phase has been awarded so far and is due for completion by Q3 2021.

SCOPE OF WORK: Detailed drawing study, Site survey with focus on accuracy and completeness with dedicated group of experienced personnel in order to achieve most competitive, cost effective and standardization for pipe Marker to meet the Requirement of ANSI/ASME 13.1 standard guidelines.

WHY A HIGH QUALITY ENGINEERING STUDY, DESIGN AND INSTALLATION IS NEEDED?

High performance Pipe Marker on Process lines and Utility lines are needed to Quickly identify pipe content (Dual language -optional), hazard identification, line number, flow direction, Source & Destination, QR code with colour banding having clear, concise and readily visible to plant operations and maintenance personnel to effective functioning of process operations, and limits the potential for upsets or casualties due to operations or maintenance errors.

Industry Best Practices recognize that implementing an effective labeling and signage program contributes to building a safe and efficient (world-class) petrochemical or production facility

Safety signs (optional-English & Arabic) are a necessary and required component to meet the ANSI/OSHA standard for warning and communicating messages or notices to your employees, contractors, customers and/or the general public. In order to provide a clear and concise message, signs must meet a variety of requirements and standards. Selecting and placing a safety sign for your facility is more than a workplace requirement, but an opportunity to prevent costly accidents or dangerous hazards for individuals within your facility.

Hazcom identification for plant personnel to identify health, physical and environmental hazards with critical information to keep your workplace safe

We provide full services including Engineering, Design, Manufacturing and Installation with necessary support and structures to whole plant to complete your GHS /NFPA labeling program. Pipe Rack profile for easy identification of Pipe lines.

TO KNOW MORE ABOUT THIS AND TO IMPLEMENT A STATE OF THE ART PROGRAM IN YOUR FACILITY WRITE TO US AT : - pe@safetyplusworld.com & bc@rajacompany.com

CORPORATE SOCIAL RESPONSIBILITY

CSR is a fundamental function for Raja Company and is based on our core values of Sharing our Wealth and Caring for Humanity & Environment at large.

We see our entity as a part of society and believe that we are responsible to give back to the community which we are part of.

We are engaged in various social activities in Kuwait and outside for last many years.

Raja Company was awarded with a Gold Medal for CSR activities from American Society of Safety Professionals (ASSP) Kuwait Chapter for the year 2020 for our contributions to the needy when the country was badly affected with the pandemic.

We supplied food and groceries all over Kuwait to help the needy people as many of them were struggling due to financial crisis and other effects of pandemic and lockdowns.

Adopting few orphanages, educating poor girl children, supporting school education for needy children, a technical Laboratory of an engineering college in India are few of the other CSR activities.

Raja Company considers our employees our greatest assets and strength and treat them accordingly. We ensure equal opportunity to all employees keeping in mind that jobs and associated elements are designed to give them a balanced work-family life.

We have implemented various procedures and activities to protect our employees and customers from COVID 19. A life insurance policy covering all fatalities was initiated for all employees in these trying times. In case of any unfortunate incident their families can be supported with the insurance.

We developed and implemented policies and procedures accordingly which are strictly followed in the fight against the pandemic.

AWARDS & ACCOLADES

PROTECT YOURSELF FROM COVID-19

Maintain a distance of at least 1 metre from others

Clean hands frequently

Wear a mask

Protect yourself.
Protect others.
Get vaccinated.
